6. Pathway survey

Plant indicated that he contacted 14 of the 18 residents that requested additional information. All but one contact was delighted with the program and wished us success. The dissenting response indicated that he liked the program but didn't want Township Dollars to be spent. His taxes were already too high and the township provides poor services.

7. Pathway update

Plant reviewed with the group a meeting with Spicer engineering, Township Supervisor, and Bay County planner. The 4 member group physically reviewed the Railroad Right of Way as a potential replacement for the pipeline property as a viable connector between Bay City and Midland. Additional meetings between City of Auburn, Monitor Township, and City of Midland will be necessary for this proposal to proceed. A plan will need to be presented to the Railroad for permission to proceed.
