FOR IMMEDIATE RELEASE

EMERALD ASH BORER (EAB) TREATMENT

Treatment to control Emerald Ash Borer infestations in effort to save publically owned ash trees will be done throughout Bay County starting on **June 7, 2018 and will continue until all treatments are complete, including on the weekends.** Trees will be treated using a direct tree injection of the Arborjet product Tree-age. Tree-age contains the active ingredient Emamectin Benzoate. There is no re-entry restrictions associated with this treatment since the product is injected directly into the individual trees. The applicator will have copies of the product label and the Safety Data Sheets available at treatment sites while injecting trees.

Application will be done by **Kinnucan Tree Experts, of 28877 Nagel Ct, Lake Bluff, Illinois 60044.**

Maps of the trees to be treated and labeling for the Tree-age product may be viewed in the Gypsy Moth Suppression Program office located on the 5th floor of the Bay County Building, 515 Center Avenue, Bay City, MI 48708.

Any questions should be directed to Alicia Wallace, Coordinator of the Bay County Gypsy Moth Suppression Program at **989-895-4195 or wallacea@baycounty.net.**
